

For Lab write-up:

- Introduction
 - 1-2 pages.
 - Include all theory/equations used.
 - Generally should cover all bold mini lecture topics at the top of lab printouts.
- Data
 - Data in the report must be also in the notebook.
 - Include error bars on plots and corresponding data tables.
 - Draw circuit diagrams.
- Analysis
 - Must explain if the experiment was successful, and if it agrees/disagrees with theory/purpose.
- Conclusion
 - summary
